To Parents About ... Immunization

Is your six year old child ready for school? Has there been an examination by a doctor and dentist this summer? If so, or if she protected against small pox, diphtheria, whooping cough, mumps and polio, when was the last booster? Don't wait until September to check on all these things. See your family doctor at once or if unable to do this, contact the nearest Health Department Office.

For children who plan to en-

roll in Palm Beach County schools, a Verification of Birth

is required. When you write or come to the Health Department Vital Statistics Office, you must give the child's name, date and place of birth, father's name and mother's maiden name. Do not delay.

Swimming News

Due to the heavy response for swimming lessons, starting Friday, June 23, the Municipal pool will be closed to the public Monday, Wednesday and Friday.

Starting Friday, June 20 there will be an additional beginners class Monday, Wednesday, Friday at 1 p.m. If you are interested in registering your child or changing your child, please call WY 6-3250.

County Commission Sets July 1st As Equalization Board

The county commission set Monday, July 1 as the first day for the group to sit as a board of equalization.

The commission is slated to get the current tax rolls and will immediately go into the equalization sessions when residents may appear to discuss tax assessments. Tax adjustment meetings will continue until all cases are heard, the commission said.

After a regular session of 60 days plus an extra 19 days, the Florida Legislature completed its duties for the biennium, on June 18th.

I do not think anyone would deny that Florida faced tremendous challenges in the 1963 legislative session.

It is evident that Florida moved forward as a result of the legislative actions in 1963.

Total spending from the general fund was increased by \$200 million over the 1961-62 budget.

The years ago a mistake was made in not facing up to many of our critical needs, and the state administration and the legislature merely borrowed political time while Florida

suffered further behind.

Whether one agrees or disagrees in whole or in part with its accomplishments history will record the fact that Florida moved forward as a result of the legislative actions in 1963.

Total spending from the general fund was increased by \$200 million over the 1961-62 budget.

The bill includes \$53,732,257 in capital outlay and \$93,259,800 in operating funds.

Most of the general appropriations as well as most of the increase for the next two years goes for building and operation of the state's public schools.

Florida has been forced to hire engineers from Daytona to lay out a water control and sewerage system for the county.

An additional grant is to be met by the county to a sugar farm on Washington.

The story sent out is:

Commissioner George Warren, who several weeks ago with the backing of Commissioner Eddie Ross, tried to get the state underway this week, but the proposal was tabbed for two weeks to give commissioners additional time to study the matter.

Warren asked that the engineers be hired to do the study.

Coastal Democrats discovered the Glades in the last election's returns — steady plugging will reveal to others the coast eventually, the \$100-a-head sugar industry at their back door" on Glades citizens states.

A number of constitutional amendments will come before the voters both this November and in November of 1964. Of major interest to the people of the Glades is the proposal to provide for building at our Universities and junior colleges. Florida Atlantic University and Palm Beach Junior College will be helped considerably in their building programs, and this proposal is important.

Besides appropriations for Florida Atlantic University and Palm Beach Junior College, our Agricultural Experiment Station, the Central and Southern Florida Flood Control District and other individual state agencies and headquarters in the County received substantial appropriations.

The largest single amount of course coming from the state is the contribution of the state to the county under the Minimum Foundation program for the public schools.

When one adds to the above the funds expended for roads you can see the sizable funds contributed by state activities to our economic welfare.

Following the dinner a program will be conducted. At this time membership dues will be collected from all who have not paid. James M. Herring, president announced.

Warren said after the preliminary work on the study is completed, the engineers plan to seek federal aid to help finance further study of the county's water control problem.

Belle Glade Postmaster Announces New Zip Code Effective On July 1

Our five-digit XIP Code is 33430, Postmaster Rosa A. Nash announced today.

Postmaster U. S. Post Office, (Your City) Belle Glade, (Your State) Florida. (Your ZIP Code) 33430.

Nash said the first time will permit the Post Office Department to short-cut repeated address reading.

"The address on mail must often be read as many as eight or ten times, by postal employees, in order to get the correct address," Nash said. "Each handling slows the process of mail dispatch and adds to the opportunity for human error."

"Everyone in Belle Glade, Florida will use this ZIP code on all their correspondence to speed delivery and reduce the chance of misdirected mail," Postmaster Nash said.

ZIP Code, the Post Office Department's revolutionary new system of improved mail distribution and delivery, came into effect January 1, 1963.

Postmaster Nash stressed the importance of all citizens of Belle Glade learning this city's ZIP Code and using it in their address, adding that all correspondence in the Glades will be handled faster.

In an answering mail, Nash said, ZIP Codes taken from return addresses on incoming mail should be used.

"The ZIP Code is literally the address of the mail," Nash said. "It should be used to get the correct address." Mrs. Nash said.

"Everyone in Belle Glade, Florida will use this ZIP code on all their correspondence to speed delivery and reduce the chance of misdirected mail," Postmaster Nash said.

Other members said the chapter in the event of an emergency could, if necessary, conduct a search and rescue operation.

The Red Cross is now building a new chapter headquarters and during the building period are housed in temporary quarters at Palm Beach International Air port.

Commissioners said the chapter in the event of an emergency could operate better from the office building.

The request was referred to the county engineer to work out details of the arrangement.

Any surplus cane in excess of

WHO IS THE GOAT?

When a high priced representative of an organization of workers MIS-represents them, WHO Is the Goat? It may be you and me; it may be the public; it may be the paper!

Have the Palm Beach County Classroom Teachers been MIS-represented, in the matter of appointment of two supervisory directors —Vince Marquess and Herman Close— in the Glades?

Their appointment by the Board, we are reliably informed, is entirely legal, and within the judgment of the Board, lies the determination of their qualifications and fitness.

Their appointment is recommended by the Trustees upon whom fall prime responsibility for selection.

An appendant of the Teacher objected, causing a delay in the appointment, at least; and thousands of school children suffer.

We are informed that he has no specific instructions from the membership to manhandle the School Board in matters of administration, with the implied cloud of disfavor in the ranks of the County's teachers.

We don't know exactly, but we've heard that Unions have what is known as a "Walking Delegat," who does that by his own or authorized delegation WALKS around as a "mouth" or "front man" for the hard-working members of the organization.

In polite discussions this DELEGATE by dint of sound argument smooths out rising waves of dissatisfaction between the wage-earner and the Boss.

Louquacious and muscle sometimes lead to threats and intimidation not representative of the integrity of the member-ship.

Palm Beach County Classroom Teachers don't, so far as we know, consider their organization a modern-day UNION. Privileges of their Secretary and Business Manager indicate that the gentleman has "read somewhere" about "walking DELE-gates."

"Interpolating Bobby" of the Kennedy Klan says we must "read between the lines" in the Constitution, in his impatience of the Supreme Court.

May the Teachers' "DELE-goat" has been reading between the lines.

We ask the teachers: "Why is it necessary for you to pay \$18 annual dues toward hiring a high-powered 'mouth-piece'?"

Adult volunteers working in hospitals contribute \$20,000 work weeks of service annually, and teenagers, many of whom serve as volunteers only during the summer vacation, contribute 162,000 additional work weeks.

"We regard a man who takes no interest in public affairs not as harmless, but as . . . useless . . ." The philosopher Thucydides of Athens said that—in 431 B.C.

Hog cholera, a disease of swine producers for many years, may soon be a problem of the producers in the United States for more than 130 years and is estimated to be costing swine producers in this country more than \$50 million dollars per year.

Maybe, we should not be too concerned about hog cholera swine production in Palm Beach County is not an important part of the agriculture industry. However, since we do have a few swine producers in the area, which bring to the attention of these producers the regulations that will go into effect August 31, 1963, that all swine production must be registered with the State Department of Agriculture. This is to prevent the spread of the disease.

Swine producers can be vaccinated at least 21 days prior to movement. Animals that are not vaccinated 21 days prior to movement must go back to the farm until an examination can be made to determine whether they are healthy. They can only sold directly or through public auctions to recognized slaughter plants for immediate slaughter.

Powdery Mildew, also gets its name from the condition it causes on the leaves and stems of plants. It will cause a rolling and distortion of the leaves and sometimes a bend of the stems, particularly just under a bud. Spraying should be done every 5 to 10 days depending on the weather and severity of the disease.

In order to eradicate this disease, it is important that swine producers vaccinate their hogs. Hog serum and vaccine are free. For additional information swine producers should contact

UNCLE DAN from DOOLIE says:

Dear Master Editor:
I got front page news for your paper this week, fast is what I want to get you an extra edition about it. Our community is fixing to get a airport special feature, and I am sure it was worked out by the fellas at the country store Saturday night.

You will recall about the U.S. Department of Agriculture setting up an airport here a few months ago to loan farmers money for branching out and growing so much stuff. It was called the Agriculture Act of 1962, and it was aimed to encourage farmers to take crop setting out of production and use for other things. Well, Secretary Fritman has announced the first 10 loans.

The first one was to a farmer in North Carolina. He had 135 acres and told the Department he wanted to grow cotton so Ed loan him \$32,000, he would take 80 acres out of production and build a golf course and take 6 acres and build a pig pen. The officials in Washington figured this would be a sound proposition, so they let him have the money.

Now Ed Doolittle announced Saturday night that he's got 10 acres laying a level ground floor that would be ideal for a airport for heliports. The fellas were helping Ed work out the details and Zeke Grubb advised Ed to see the Agriculture officials that the Bureau of Reclamation was building

Fishing Licenses Available Now

For All-State Use
The new 1963-64 fishing license are now available at the offices of all County Judges and their authorized sub-agents throughout the State. While the new fishing license is not required until midnight June 30, it is presently being issued by the State Home Garden.

As we approach the rainy season, diseases will be more active in our gardens and more care should be exercised to keep our plants healthy. We can look forward to a good year in the gardens.

Paul VI To Be Crowned Sunday

Sunday, June 30, is a memorable day for members of St. Peter's Basilica. The 63rd spiritual leader of 1.5 million Catholics will be crowned at St. Peter's Basilica in Rome, exactly on the spot where his predecessor lay in state three weeks ago and where over 200,000 people are expected to attend this ceremony. Pope Paul VI gained at least two-thirds of the votes of eighty cardinals who were seated in conclave last week. The famous Giovanni Battista Montini, Pope Paul VI was born in the northern part of Italy. His father was a crusading lawyer and a journalist.

In electing Montini, the cardinals chose a man whom able to continue John XXIII's principal work, the Ecumenical Council and the fight for peace. A favorite of both Pius XII and John XXIII, the thin frail man, who has been speaking English fluently for an experience of 30 years with the Vatican Secretariat of State and nine years as archbishop of Milan, with a flock numbering 3 and one-half million. In 1960 he came to the United States to receive an honorary L. D. from Notre Dame at the same time former President Eisenhower received his.

The choice of name Paul is as old as what the new pope means to accomplish during his pontificate. The first pope to be called Paul is now a saint. He died in the year 767 in a rough age of cruelty. Over

seven hundred years elapsed before another pope took the papacy. During his seven years as pope, Paul VI had to face a series of rebellions and seditions in the States around him. The most famous Paul in the history of the papacy is Paul III who convened the Council of Trent in the 16th century.

Pope Paul VI in his first message to the world, last Friday, set out in the footsteps of his predecessor, calling on mankind to live in peace and justice. He told them who are suppressed behind the iron curtain to "feel themselves near to us" and to look with hope to the radiant dawn of resurrection.

All the bells of Rome will be pealing thunderous joy on Sunday. The gestatorial chair, the huge white and gilt sedan chair of ceremonial will be used. Pope Paul will be seated, will be raised to the shoulders of the stately guards who would follow the procession of Vatican soldiers and the colorfully dressed clerics and officials of the Papal Guard. He will wear his full pontifical vestments. Before moving to the High Altar a prelate would advance for three times towards the Papist and setting a flame on fire, and flares a cterly and distinctly, "Our Father, so passes the glory of the world." The coronation itself, a surprising brief ceremony will take place after Mass. It will be the placing of the triple crown, called Tiara, on the head of Paul XI by the cardinal dean.

Bible School

When Dr. Pierce Harris, a preacher from Atlanta, Georgia spoke at a prime camp, he said earlier days of association with the minister: "Several years ago," he said, "two boys lived in the same community in North Georgia and attended the same school, played with the same bunch of fellows, and went to the same Sunday School. One of them dropped out of Sunday School because he had nothing to do, and just sat there doing stuff. The other boy kept on going because he felt it really did mean something in his life. The boy who dropped out is making a success today. The boy who kept on going to Sunday School is the famous preacher who will preach to us this morning."

Parents bring those children to Bible School every Sunday morning and at noon. You have the Belle Glade Church of Christ, 126 N. W. Avenue D. invites you to attend the Bible classes on Sunday Morning at ten o'clock and on Wednesday night at 7:30. You are always an honored guest.

Churches of Christ Scientist

"Christian Science" will be the subject of the Bible Lesson this Sunday at First Church of Christ Scientist, Belle Glade.

The Golden Text is from Luke 10:27, "Love your neighbor as yourself." It made me have my holy arm in the eyes of all the nations; and all the ends of the earth shall see the salvation of our God."

Related readings will include the New Testament, which its idea is sweeping down the centuries, gathering beneath its wings the sick and sinning."

Glades Pioneers Complete Plans For First Air Trip

Jay Morris, an assisting minister of the Belle Glade Congregation of Jehovah's Witnesses, East Unit, said today plans have been finalized for the forthcoming eight-day international flight of a small religious group scheduled for Milwaukee, Wisc., June 30-July 7 and the Yankee Stadium New York, July 7-14.

Mr. Morris, president of 140 E. Canal Street, will be the oldest local delegate representing the local congregation. Morris said interest in the religious work of Jehovah's Witnesses keeps him active in his advanced age. He said, "People are more interested in the religious work of Jehovah's Witnesses than ever before."

"Accepting Christian responsibilities and obligations rests with all people," he said, "and age is no barrier to this. We are not too old to serve God and our fellowmen."

Mrs. Morris and wife, Arlie, are traveling to Milwaukee to plan the trip of the Glades' Pioneers. Their previous trips have been car trips, but decided this year they would like to fly. They will travel via airplane to their destination.

They will be accompanied to Milwaukee by Mr. and Mrs. Miles Crum also of the local congregation. Mr. and Mrs. Crum are planning to attend the Air Force Chaplain School. Concurrently with the Chaplain School appointment will be made to permanent duty Newly appointed Captains and Chaplains are commissioned at the rank of First Lieutenant.

After graduating from New Orleans Baptist Theological Seminary, Rev. Meeks accepted the pastorate of the Folsom Chapel in November, 1959. His resignation is effective July 15th.

Rev. and Mrs. Meeks are native Floridians and have two sons: Michael S. and Mark B. Meeks. They are parents of Paulette, a High School senior class of 1952 and Mrs. Meeks, the former Johnnie Lowery, is a graduate of Belle Glade High School and was graduated from a summer school at Southeastern, La. College, Hammond, La., with a BA degree.

Mrs. Meeks and the boys will vacation with her mother, Mrs. R. Lowery, in Paulette during Rev. Meeks' stay at the Chapman School. Upon permanent assignment to Folsom, she will move to the Air Force base.

Everyone enjoyed the outing and fellowship. Guests were Dr. and Mrs. F. L. Lusk, children of Rev. and Mrs. Lusk, and Mrs. Ray Lind and husband also of Lakeland, Rev. Boland, Miss Sally Ann Boland, Walter Hooker and John A. Dunaly. Members of their families included Rev. Dr. and Mrs. M. M. Lusk, Lusk and children, Mr. and Mrs. Martin Carpenter and children; Dr. and Mrs. Hill and children, Mr. and Mrs. Ray Roth and children; Mr. and Mrs. Robert Burdette and children, Mrs. Virginia Marquess and children, Mrs. A. R. Minor and children.

Methodist Circles Have Joint Meeting

The Joy and Star Circles of Community Methodist Church met recently. The Joy Circle was the hostess circle and the Star Circle took charge of the program, which was entitled, "You Are A Missionary, Too."

One of the topics in the program that kept a missionary is an attitude of the heart, and that we are all missionaries in our everyday contacts — in what we teach our children, in our homes, in our schools, and in our own back yard."

Mrs. Alice Huebler gave the devotional message. Those taking part in the program were Mrs. Iris Hodges, Mrs. Virginia Williams, and Miss Vida Hardee.

Related readings will include the New Testament, which its idea is sweeping down the centuries, gathering beneath its wings the sick and sinning."

Constitution And Bylaws Adopted

The First Baptist Church of South Bay has adopted its Constitution and By-Laws. The church in business conference voted and passed upon a new constitution and by-laws which will establish three church rolls in its congregation.

A recommendation was read and approved that the rolls be made up of those who participated from the months of July August and September. Then beginning the new church year as of October 1st. The three rolls would be in effect.

Six Lessons From The Prodigal Son

By Roscoe Knight
The person we have come to know as the Prodigal son by many gives six lessons for us to learn.

May we, then consider them one after the other?

In the first place he shows us we can depart from God and return to him again.

The second lesson he shows us we can depart from God and never return.

The third lesson he shows us we can depart from God and return to him again.

The fourth lesson he shows us we can depart from God and never return.

The fifth lesson he shows us we can depart from God and never return.

The sixth lesson he shows us we can depart from God and never return.

As a result of this waste he became a swine. The unhappy consequence of sin is seen in this.

Next may I point out the importance of sin in our lives as a result of all these things, "he came to himself."

The young man then made a wise decision. He decided to go to his father. He simply said I will not be a swine any longer.

The starting of the decision is little value. The real value is seen in the fact that he did arise and did go.

Many a man has said I will do better, but has not done so for family, and then forms what he had determined to do. It would be a wise choice to decide to be come simply a Christian.

The services of the Southside Center of Christ are being held, temporarily, in the Community Center.

Showers Compliment Jackie Croft To Be Married June 28 At 7:30

Mrs. Richard Murray entered into a formal engagement last Friday, at a luncheon and Tupperware shower for Miss Jackie Croft, whose wedding to Mr. Dow McClelland of Canal Point, is set for next Friday, June 28th at the First Baptist Church in Belle Glade.

The table was covered with a silver lame cloth, and had as a centerpiece, wedding bells made of gold and silver, bells of the valentines and madmen, and one tall white taper.

Miss Gail Parker gave a very humorous reading on Jackie's first trip to the church. Each girl had a small sheet of something that happened to them at the time of their wedding. These were very entertaining and ranged from the father of the bride dying shortly before the wedding to the mother of the bride getting lost.

An unusual wedding gift presented by the hostesses was a lovely musical bridge book with complete pages for pictures, names and etc. The traditional wedding music of the book was played during the evening.

Refreshments of individual wedding cakes topped with pink and silver wedding bells and punch were served from the tables decorated with a white linen cloth, cut glass punch bowls and a centerpiece of white and pink chrysanthemums.

Hostesses were Miss Mary Mathewson, Mrs. Geneva Cross, Mrs. Linda Weeks, Mrs. Edna Keeler, Mrs. Barbara Bass, Miss Pat Anderson, Mrs. Sue Birch, Mrs. Frank C. Anderson and Mrs. Jack Mathewson.

In Palm Beach . . .

Live As A Budgeted Millionaire

Things happen in exciting and fabulous Palm Beach in the summer too! Many successful business men and women, which in former years rolled up the carpets, now hang out the "Open All Summer," sign and turn on the charm to welcome everyone to the world-famous resort.

Palm Beach, which prides itself on having more millionaires per square mile than any other community, now opens its doors with the same elegance to budget vacationers looking for a inexpensive holiday or a peaceful plan.

In this self-styled "Town of Millionaires," the 1963 winter season was one of the most successful in the resorts long and illustrious history, and the summer season promises to surpass all previous summers.

Realizing that there are many more non-millionaires than millionaires, Maurice B. Frank, owner of The Sea Breeze, a luxury hotel located on the ocean in Palm Beach, took on the slogan, "You don't have to be a millionaire to live like one!" and has set about proving it to a budget-minded clientele.

The 137 luxuriously appointed rooms of the Sea Breeze that are filled all winter at \$40 a day, now go for \$49.95 for 8 nights and 7 days . . . and . . . that's not all! . . . Mr. Mrs. or Miss "Budget Vacationer" can all the room service of a tycoon's dreams, gets breakfast and dinner daily on the house. Super luxury is the word! If one wishes, he or she may dine under the stars, or enjoy a hearty breakfast poolside. The cuisine is superb, and the service unexcelled.

All this for six night and seven days for \$49.95 per person (double occupancy) makes up one of the most exciting summer packages to be found along the cool summer shores of the Atlantic.

Located on AIA, the Sea Breeze is easily accessible from the Intercoastal Waterway, the airport and is only five minutes from all bus terminals.

TOTAL PERFORMANCE:

FORD GALAXIE 500/XL SPORTS HARDTOP

IF YOU KNEW WHAT THIS "CAR KILLER" KNOWS...YOU'D BE DRIVING A SOLID, SILENT SUPER TORQUE FORD

This steel-edged pothole is probably the world's toughest test of a car's suspension. We drive into this car killer at 30 mph, locking our brakes as we go so the wheels can't roll through the hole as they normally would. The car slams against the far edge of the hole with such impact that it literally bounds out.

If you added up the cumulative effect of all the jars and jolts your car's suspension would experience in years of driving, it would catch up in one trip across this hole.

Yet—a Ford must run this test three times to prove its strength.

How can a Ford stand it? Because Ford's front suspension has extra beef in spindles, springs, suspension arms—in fact, it's about 20 pounds heavier than the front suspension of our principal competitor's car.

We don't expect you to abuse your car the way we do our test cars. But, however you drive, you'll welcome the extra strength of a total performance Ford. Ford strength is tested in a thousand ways in Ford's laboratories and proving grounds—and in open competition in the world's toughest rallies and stock car events.

Look at Ford's astounding record in open competition this year in the grueling Daytona, Riverside, and Atlanta 500's, the World 600 at Charlotte, N.C., and in the demanding Pure Oil Performance Trials. Only a car with total performance—the best combination of strength, balance, precision control and road-clinging suspension—could stand up to many wins.

Before you buy any new car, ride in the solid, silent Super Torque Ford. If you haven't driven one lately, you can't really know what a new Ford is like. Make this important discovery: if it's built by Ford, it's built for performance...total performance.

Allies Join Russia In Cuban Shipping Rogers Advocates "Get Tough" Policy

Congressman Paul Rogers, (D-Fla.) told the House that the number of Communist ships have increased the number of ships calling in Cuba.

In the first U.S. government indication of the extent of Russian shipping to Cuba, Rogers said, "I have received information from various government sources which shows that the Russians have increased the number of ships calling in Castro's island in recent weeks."

"It may be too early to determine the significance of this increase," Rogers stated, "but
